1. The inhabitants of Wustrow peninsula (M55/051) were given twenty four hour notice to leave the area, and 213 families, consisting of 2,228 people had to leave their homes. The peninsula, which was formerly the largest German antiaircraft training area, is being prepared for the Russian navy and air force.
2. The former German torpedo testing installation in Rerik is believed to have been restored, since it had not suffered any serious damage. Preparations are also being made in Rerik for the arrival of police units which are to consist of small commando groups which will perform guard duties.
3. No artillery or anti-aircraft have been installed in the region of Sievershagen west of Rostock.
4. On Rugen island the only installation near Mukran (N55/P87) is a destroyed German air force battery. To the north and south of Sassnitz (N55/P87), particularly on the cliffs along the coast, the Russians have carried out surveys and set up beacons, presumably for use as artillery and observation posts.
